

Hopefully, your school has received, used and loved the new Upgrade resource and now its time to tell us what you think. This resource has been produced by Transport for London with information for parents and pupils and a set of lesson plans for teachers. This resource will equip pupils with the knowledge to make a safe, happy and sustainable transition from primary to secondary school. This is the second stage of the evaluation which will enable us to evaluate and improve the content of Upgrade thoroughly.

Thank you for your support and your time in completing this form.
